**CAPS PROJECT IDEA: Social Network 4
Intergenerational Learning & Dialogue**

2bi CAPS PROJECT IDEA

IDEA & OBJECTIVE: connecting and empowering young and retired entrepreneurs

- Intergenerational dialogue + digital empowerment: promoting social awareness and solidarity between generations and facilitating implementation & development of new social and economic models.

HOW?

- Supporting the exchange of sustainable and effective business practices among young and retired entrepreneurs and facilitating the exchange of ideas and expertise beyond individual projects & providing a platform for the development of new projects and social initiatives.

NETWORK METHODOLOGY
(for distributed knowledge creation)

- Time banking methodology
- Project – based mutual learning (work groups).

IMPACT

- Network enabled collective intelligence towards the innovation and development of new business methodologies and projects.

WHY INTERGENERATIONAL LEARNING & DIALOGUE?

Intergenerational learning beyond the transfer of knowledge, fosters reciprocal learning relationships between different generations and helps to develop social capital and social cohesion in our ageing societies.

Intergenerational learning & dialogue can also be approached as one way of addressing the significant demographic change and as a way of enhancing intergenerational solidarity.
